Unfortunately chipcrisis prevents us from producing the tracker today.

As soon, as all necessary components will be available, we will ramp up production immediately. All is ready and prepared for that „GO“.

We will start with 868 MHz trackers for the European Market first, then we will swap into other frequencies and adapt the first model to serve your market.

We know, there are lots of animals in Saudi Arabia and the demand is really huge, not only camels, but others.

We will tell you later about shipping costs here

Regards
